I. Vehicle Operation	
1.	Maintain cleanliness and hygiene in the cab, clean and disinfect the steering wheel, door handles, frequently used levers and buttons, seats and in general anything you usually touch with your hands.
1.1	Whenever entering the cabin it is recommended to spray shoe/boot soles with a chlorine-based solution and wash/sanitize hands.
1.2	Truck cabins should be cleaned after every shift. If using a cleaning crew, train and equip them appropriately including posting a "This cabin has been sanitized" card or sign.
1.3	Clean vehicles frequently and include discharge controls, clamps & clips, and other needed equipment where possible.
1.4	When cleaning the cab, it is advisable to let it ventilate (10 minutes).
1.5	If sharing a vehicle, before handing over for the next shift, disinfect the keys, cab, door handles, etc. and any other items that have been assigned for your work.
1.6	Dispose of any tissue or other waste in a closed bin.
2.	When driving, keep windows half-open for ventilation.
3.	Try to have a sanitizing solution available.
4.	Do not operate or board equipment that has not been specifically assigned to you.
