Except as the context otherwise may require, references in this presentation to “CEMEX,” “we,” “us” or “our” refer to CEMEX, S.A.B. de C.V. and its consolidated entities. The information contained in this presentation contains forward-looking statements within the meaning of the U.S. federal securities laws. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements within the meaning of the U.S. federal securities laws. These forward-looking statements and information are necessarily subject to risks, uncertainties, and assumptions, including but not limited to statements related CEMEX’s plans, objectives, expectations (financial or otherwise), and typically can be identified by the use of words such as “will,” “may,” “assume,” “might,” “should,” “could,” “continue,” “would,” “can,” “consider,” “anticipate,” “estimate,” “expect,” “envision,” “plan,” “believe,” “foresee,” “predict,” “potential,” “target,” “strategy,” “intend,” “aimed” and similar terms. Although CEMEX believes that its expectations are reasonable, it can give no assurance that these expectations will prove to be correct, and actual results may vary materially from historical results or results anticipated by forward-looking statements due to various factors. These forward-looking statements reflect, as of the date on which such forward-looking statements are made, our current expectations and projections about future events based on our knowledge of present facts and circumstances and assumptions about future events, unless otherwise indicated. These statements necessarily involve risks, uncertainties and assumptions that could cause actual results to differ materially from historical results or those anticipated in this presentation. Among others, such risks, uncertainties, and assumptions include those discussed in CEMEX’s most recent annual report and those detailed from time to time in CEMEX’s other filings with the Securities and Exchange Commission and the Mexican Stock Exchange (*Bolsa Mexicana de Valores*), which factors are incorporated herein by reference, including, but not limited to: impact of pandemics, epidemics or outbreaks of infectious diseases and the response of governments and other third parties, including with respect to the novel strain of the coronavirus identified in China in late 2019 and its variants (“COVID-19”), which have affected and may continue to adversely affect, among other matters, the ability of our operating facilities to operate at full or any capacity, supply chains, international operations, availability of liquidity, investor confidence and consumer spending, as well as the availability of, and demand for, our products and services; the cyclical activity of the construction sector; our exposure to other sectors that impact our and our clients’ businesses, such as, but not limited to, the energy sector; availability of raw materials and related fluctuating prices; volatility in pension plan asset values and liabilities, which may require cash contributions to the pension plans; the impact of environmental cleanup costs and other liabilities relating to existing and/or divested businesses; our ability to secure and permit aggregates reserves in strategically located areas; the timing and amount of federal, state and local funding for infrastructure; changes in the level of spending for private residential and private nonresidential construction; changes in our effective tax rate; competition in the markets in which we offer our products and services; general political, social, health, economic and business conditions in the markets in which we operate or that affect our operations and any significant economic, health, political or social developments in those markets, as well as any inherent risks to international operations; the regulatory environment, including environmental, energy, tax, labor, antitrust, and acquisition-related rules and regulations; our ability to satisfy our obligations under our material debt agreements, the indentures that govern our outstanding notes, and other debt instruments and financial obligations, including our subordinated notes with no fixed maturity and other financial obligations; the availability of short-term credit lines or working capital facilities, which can assist us in connection with market cycles; the impact of our below investment grade debt rating on our cost of capital and on the cost of the products and services we purchase; loss of reputation of our brands; our ability to consummate asset sales, fully integrate newly acquired businesses, achieve cost-savings from our cost-reduction initiatives, implement our pricing initiatives for our products and generally meet our “Operation Resilience” strategy’s goals; the increasing reliance on information technology infrastructure for our sales, invoicing, procurement, financial statements and other processes that can adversely affect our sales and operations in the event that the infrastructure does not work as intended, experiences technical difficulties or is subjected to cyber-attacks; changes in the economy that affect demand for consumer goods, consequently affecting the demand for our products and services; weather conditions, including but not limited to, excessive rain and snow, and disasters such as earthquakes and floods; trade barriers, including tariffs or import taxes and changes in existing trade policies or changes to, or withdrawals from, free trade agreements, including the United States-Mexico-Canada Agreement (“USMCA”), which was signed on November 30, 2019 and entered into force on July 1, 2020, superseding the North American Free Trade Agreement (“NAFTA”); availability and cost of trucks, railcars, barges and ships, as well as their licensed operators, for transport of our materials; labor shortages and constraints; terrorist and organized criminal activities as well as geopolitical events, such as war and armed conflicts, including the current war between Russia and Ukraine; declarations of insolvency or bankruptcy, or becoming subject to similar proceedings; and, natural disasters and other unforeseen events (including global health hazards such as COVID-19). Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from historical results, performance or achievements and/or results, performance or achievements expressly or implicitly anticipated by the forward-looking statements, or otherwise could have an impact on us or our consolidated entities. Any or all of CEMEX’s forward-looking statements may turn out to be inaccurate and the factors identified above are not exhaustive. Accordingly, undue reliance on forward-looking statements should not be placed, as such forward-looking statements speak only as of the dates on which they are made. These factors may be revised or supplemented, but CEMEX is not under, and expressly disclaims, any obligation to update or correct the information contained in this presentation or any forward-looking statement that it may make from time to time, whether as a result of new information, future events or otherwise. Readers should review future reports filed by us with the U.S. Securities and Exchange Commission and the Mexican Stock Exchange (*Bolsa Mexicana de Valores*). This presentation also includes statistical data regarding the production, distribution, marketing and sale of cement, ready mix concrete, clinker, aggregates, and Urbanization Solutions. Unless the context indicates otherwise, all references to pricing initiatives, price increases or decreases, refer to CEMEX’s prices for CEMEX’s products. We generated some of this data internally, and some was obtained from independent industry publications and reports that we believe to be reliable sources. We have not independently verified this data nor sought the consent of any organizations to refer to their reports in this presentation.

Cement industry can transform waste and industrial byproducts to sustainable new use

CEMEX managed **23M tons of waste** in 2021
57 times what we generated

Circularity solutions contributing to a net positive society

Introducing:

Regenera

Committed to Circularity

Committed to Circularity

Clients

- Cement operations

- Aggregates and cement operations

- Cement and ready-mix operations

3rd Party Customers

- Municipal governments
- Private companies
- NGOs

- Developers
- Government
- Industrial customers

- Industrial customers
- Builders and precasters

Achieving **34% alternative fuels substitution with high biomass content**, reducing landfill and avoiding **1.6 M tons of CO₂ emissions**

Managing 25% of the waste generated in Mexico City

Leading producer of alternative fuels in the Czech Republic

Working with local fishermen to clean the Nile River

Construction, Demolition & Excavation Waste

Avoiding **6 M tons** of extracted virgin materials while producing **sustainable products**

1 M tons of excavation waste recovered for reuse or recycling

43% of returned ready-mix transformed into recycled aggregates

Developing an alternative mineral **supply chain for a low carbon future**

Circular Economy

- Recycling byproducts from other industries for cement and ready-mix production

10 M tons
substituted
In 2021

CO₂ Reduction

- Lower clinker factor
- Reduced thermal heat demand

Equivalent
5.5 M cars
per year

2030 target to increase managed waste by 80%

100 times what CEMEX generates

2030 targets by waste stream

Double municipal and industrial waste managed, achieving **50%** of fossil fuel substitution

Recycle **14 M tons** per year of construction and demolition waste

Increase **30%** the use of alternative raw materials and byproducts eliminating **13 M tons** per year of extracted materials

CEMEX is leveraging its assets to offer **clean and sustainable waste valorization solutions**
